

2016 Public Affairs Annual Report

Objective:

To highlight and share the impacts made by Family and Consumer Sciences Extension Agents at the local, state and national level.

Plan of Action: State Chair will compile NC Impacts and submit to NEAFCS. State Impacts will be shared with Agents and at the AAFCS (American Association of Family and Consumer Sciences) NC Affiliate meeting.

State VP will lead a session at the State Meeting and Professional Development to encourage reporting of impacts and their importance. Information gathered at PILD (Public Issues Leadership Development Conference). Participants in the NCEAFCS session learned how the program Impact report is compiled for the National Extension Association of Family and Consumer Sciences and heard how that report is shared with stake holders and legislators. Participants learned best practices for reporting impacts in their own community.

State VP created a plan for collaboration with AAFCS-NC to promote “Dining In” locally and at the state level.
