

2015 West District President Report

March 27, 2015

The West District Extension Association of Family and Consumer Sciences met at the Mountain Horticultural Crops Research and Extension Center in Mills River. Extension Agent Julie Sawyer greeted us with beautifully prepared morning snacks that included local trout. Mike Yoder, associate Extension director and state program leader for 4-H and family and consumer sciences, was our guest. After a question and answer session, we held our business meeting and nominated new officers. We had lunch together at the Tamarind Thai restaurant and then toured the newly opened Sierra Nevada brewery.

October 23, 2015

The West District Extension Association of Family and Consumer Sciences met at the home of Extension Agent Sherrie Peeler in Webster, NC. After our business meeting, Sherrie provided a delicious home-cooked soup for lunch. Our educational program featured professionals with Home Economics/Family and Consumer Science backgrounds who had succeeded in administrative careers.
